Logistics and introduction

August 6 – August 10, 2018
SDSC Summer Institute

Robert Sinkovits
San Diego Supercomputer Center

Logistics

- Lunch Monday-Thursday at Ventanas, 10-minute walk. I have sunscreen for anyone who needs it

- Reception tonight on campus, 15-minute walk

- Dinner at La Jolla Shores Thursday, transportation provided

- Bathrooms – exit auditorium, turn left

- Parking!

- Lightning round Wednesday – be sure to provide your slides

- Plenary and parallel sessions

- Wireless – use UCSD-GUEST or eduroam

- Accounts – be sure to use account that was provided, even if you have your own account

- Joke of the day

Introduction

Tell us a little about yourself

1. Who you are and where you're from

2. Your research and/or what you do at work

3. What you do when you're not working (running, reading, knitting, music, art, cycling, etc.). If you're a grad student and don't have time for anything else, that's fine

Reservations and interactive use

Aliases for interactive nodes

- getcpu – one compute node for three hours

- getcpu[124] – one compute node for 1, 2, 4 hours

- getgpu – one GPU on shared-gpu node for three hours

- getgpu[124] – one GPU on shared-gpu node for 1, 2, 4 hours

- alias getcpu="srun --pty --nodes=1 --ntasks-per-node=24 -p compute -t 3:00:00 --reservation=SI2018DAY1 --wait 0 /bin/bash"

Reservation

- sbatch --res=SI2018DAYX yourjobscript (X = 1, 2, 3, 4, 5)
